RE: Updated Awareness Information  
DATE: September 6, 2018

If you have not already done so this year, please duplicate the white copy, distribute to students before October 1, and keep one dated copy in your Awareness file. If you replaced the copies in your Administrative offices when we sent them in July that is fine. You do not need to replace them unless they do not have a date of September 2018.

Also, please make sure that the notice is posted on your school district's website. You will need to document it by printing a screenshot of the notice and webpage links and keep a dated copy in your Awareness file as well.

We will be sending verification of Radio Announcement at a later date.

Thank you

Pat O'Neal
